Subject: Superfund polygons

Hi Brad,

A FOIA request from you just came to me today. Unfortunately the online shapefile available to you for download was missing the dbf file, as you pointed out. I'm very sorry for that. You can find the shapefile attached with everything you need I hope. I am having it put back out on the EDG but this gets it to you more quickly.

We will be undertaking an update of our Superfund polygons over the next few years. This shapefile represents our first effort to create them back in 2007 and 2009 and they have not been updated since then. Just fyi on that.

SuperfundPoly0... SuperfundPoly0... SuperfundPoly0... SuperfundPoly0... SuperfundPoly0... SuperfundPoly0... SuperfundPoly0...

Another note: these polys are not just NPLs so look at the table to see which ones are NPLs and which ones are not.
